

SUITE 97B

The Wilder I

THE SUITE

Bright, airy, and full of historic details that age well.

Three walls of windows, a view into the original light well, and a focus room flooded with natural light. A kitchenette tucked into an antique elevator shaft, a huddle room for serious conversations, and two phone booths for the enthusiastic sales calls.

Stack with 97C directly above or pair with 93B on the same floor; either way there's plenty of room to grow

ORIGINAL HOME OF

D. R. Wilder

Steam Candy Manufacturing

David Wilder ran a steam-powered candy manufacturing operation here in the 1890s, using then-cutting-edge industrial technology to produce candy at a scale and consistency no one else in the South could match
