CBRE

Location

La Jolla Village Square is located in one of the most desirable and sought after trade areas of San Diego County. Strategically positioned near UCSD, La Jolla Village Square provides dining, entertainment and daily needs to the dynamic UTC workforce, along with the many dense and affluent residential neighborhoods.

La Jolla, Spanish for "the jewel," is a quaint but affluent town where Chanel clad ladies panning for gems coexist with college kids eating frozen yogurt, and where hang gliders and surf bums frequent the same coffee shop as moguls and movie stars. The attraction? First rate shopping, top flight hotels, postcard views and killer surfing.

Top Consumer Segments

These are the top consumer segmentations, comprised of neighborhoods within 1 mile of the subject site.

College Towns | 43% (within 1 mile of site)

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

Metro Renters | 29.5% (within 1 mile of site)

Residents in this highly mobile and educated market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastest growing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Metro Renters residents income is close to the US average, but they spend a large portion of their wages on rent, clothes, and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping, and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

Emerald City | 6.8% (within 1 mile of site)

Emerald City's denizens live in lower-density neighborhoods of urban areas throughout the country. Young and mobile, they are more likely to rent. Well educated and well employed, half have a college degree and a professional occupation. Incomes close to the US median come primarily from wages and self-employment. This group is highly connected, using the Internet for entertainment and making environmentally friendly purchases. Long hours on the Internet are balanced with time at the gym. Many embrace the "foodie" culture and enjoy cooking adventurous meals using local and organic foods. Music and art are major sources of enjoyment. They travel frequently, both personally and for business.

Urban Chic | 6.1% (within 1 mile of site)

Urban Chic residents are professionals that live a sophisticated, exclusive lifestyle. Half of all households are occupied by married-couple families and about 30% are singles. These are busy, well-connected, and well-educated consumers—avid readers and moviegoers, environmentally active, and financially stable. This market is a bit older, with a median age of almost 43 years, and growing slowly, but steadily.

PREPARING FOR THE FUTURE

UC San Diego

UNIVERSITY OF CALIFORNIA SAN DIEGO'S VISION FOR GROWTH

The University of California San Diego is poised for a dramatic transformation as its campus population is expected to rise 45% by 2040. Current growth projections estimate a combined population of 96,300 students and employees within the same timeframe, which translates to a 30% increase in demand for student housing.

In response to this burgeoning need, UCSD recently completed its eighth college with the theme "Engagement & Community" and has announced plans for a fourth "Living and Learning Neighborhood," set to debut in 2025.

UCSD pledges to stay a vibrant and accommodating environment for its expanding community.
