

A New Architectural Presence in Old Town Scottsdale

A COMPLETE TRANSFORMATION — INSIDE AND OUT

4330 N Civic Center Plaza | Scottsdale, Arizona | ±8,500 SF

A completely reimagined commercial property designed for today's sophisticated owner/user.

4330 N Civic Center Plaza is being completely remodeled inside and out, creating a modern, open and flexible two-story space with floor-to-ceiling frameless glass storefronts, high exposed ceilings and contemporary finishes—within a distinctive architectural setting in the heart of Scottsdale.

MAKE IT YOUR OWN

Work directly with the project architect and builder to create a workplace tailored to your business—bringing your vision for the space to life with a floor plan, aesthetic and functionality designed around the way you work.

DESIGNED FOR WHAT'S NEXT

A flexible two-story configuration allows the property to evolve with its owner—whether envisioned as a signature headquarters, a right-sized owner-user environment, or a combination of business and income-producing space.

AT THE HEART OF SCOTTSDALE

Positioned within the Civic Center / Old Town district, 4330 N Civic Center Plaza places an owner at the intersection of Scottsdale's most established business, cultural, dining and entertainment destinations.

A MORE ACCESSIBLE OLD TOWN

The City of Scottsdale is expanding the Brown Avenue Parking Structure and adding 185 public parking stalls, with new spaces expected to be available spring 2027.

This significant investment in public parking will improve accessibility for businesses, employees, clients and visitors and further enhance the Old Town Scottsdale experience.
