THE OFFERING

Explorer Campus presents the opportunity to acquire a 100% leased, multi-tenant office investment located within the Boise Research Center, one of Boise's established business districts. The 44,688 SF campus is occupied by a stable mix of engineering, technology, and professional service firms, with several tenants in place since 2006, demonstrating strong tenant retention and long-term stability. Convenient access to nearby amenities, including the Treasure Valley Family YMCA, further enhances the property's appeal to both tenants and investors.

THE HIGHLIGHTS

The property is 100% leased, providing immediate and stable in-place cash flow.

Several tenants have occupied the campus since 2006, demonstrating exceptional long-term stability.

Carollo is undergoing a major expansion of their water testing laboratory, investing significant capital into the building solidifying their long-term commitment to the campus.

A diverse mix of engineering, technology, and professional service firms provides a stable tenant base.

Originally developed as a research and office campus with functional, flexible floor plans.

The property is conveniently located adjacent to the Treasure Valley Family YMCA and nearby retail and dining amenities.

ZONING INFORMATION

I-1 (INDUSTRIAL: LIGHT)

I-1 (Industrial: Light) zoning in Boise, Idaho is the city's designation for lower-impact industrial uses that can coexist near commercial and residential areas with proper design standards. It is intended to accommodate light manufacturing, assembly, fabrication, and technology-related land uses that may require significant transportation services but that typically do not operate during nighttime hours, and are generally compatible with nearby commercial and residential areas when accompanied by substantial buffering, screening, and standards designed to mitigate impacts.

In terms of dimensional standards, there are no minimum lot area, lot width, or street frontage requirements. Setbacks include a 20-foot front yard minimum, a 15-foot street side minimum, and zero-foot interior side and rear yard minimums. Building height is capped at 55 feet.

For streetscape design, each frontage on a local street must include a detached sidewalk at least five feet wide, separated from the curb by eight to ten feet to accommodate a landscape buffer and street trees. Frontages on collector or arterial streets require a wider detached sidewalk of at least ten feet with the same curb separation.

On the environmental and operational side, no uses that generate, use, treat, store, or dispose of hazardous substances are permitted, and all operations creating odor, dust, smoke, fumes, noise, vibrations, or other emissions must be reasonably mitigated to protect the health, safety, and general welfare of surrounding land uses.

Overall, I-1 is designed to strike a balance — allowing productive industrial and manufacturing activity while keeping impacts manageable enough to sit alongside commercial corridors and neighborhoods. For the most precise and current standards, it's always best to consult Boise's official zoning code.

**Light
manufacturing &
assembly allowed**

**Daytime

interior setbacks**

LEARN MORE

BOISE, IDAHO

AREA OVERVIEW

The Boise Valley is home to Idaho's capitol and serves as the center of commerce, politics, population, cultural events, and the blue field that personifies the Boise State Broncos. As a high desert community resting at the foot of the mountains, it is surrounded by thriving bedroom communities rich in their own histories and economies, bringing the metro area population to approximately 845,864. Experts estimate the MSA population will exceed 1,075,000 by 2050.

Although Idaho is world famous for its agriculture, it has an equally vibrant economic environment for high-tech, healthcare, education, transportation, service, tourism, and retail industries. Many nationally and globally recognized corporations have a home in the valley, including Micron Technology, Hewlett Packard, Amazon, Albertsons, J.R. Simplot Company, MotivePower, Materne, LambWeston, and many others.

Forbes consistently ranks the Boise Valley as one of the top places in the country to not only do business, but also for raising a family, entertainment, recreation and its high quality of life.
