Residents are well educated and climbing the ladder in STEM (science, technology, engineering, and mathematics) occupations. They change jobs often and therefore choose to live in condos, townhomes, or apartments; many still rent their homes. The market is fast-growing, located in lower-density diverse neighborhoods of large metro areas. This young market makes over one and a half times more income than the US median, supplementing their income with investments. At home, they enjoy the internet and TV on high-speed connections with premier channels and services.

YOUNG AND RESTLESS

3 MILES

Gen Y comes of age: Well-educated young workers, some are still completing their education, employed in professional and technical occupations, as well as sales and office and administrative support roles. These residents are not established yet, but striving to get ahead and improve themselves. This market ranks in the top 5 for renters, movers, college enrollment, and labor force participation rate. More than half are under the age of 35, the majority living alone or in shared nonfamily dwellings. Median household income is still below the US. Smartphones are a way of life, and they use the internet extensively.
