LOCATION + CONNECTIVITY

Situated at the intersection of Dixie Road and Steeles Avenue East, the site offers superior connectivity to the 410 and 407, with interchanges to both highways located just minutes down Dixie or Steeles. These highways offer connections to all 400 series highways, providing ease of access across the GTA.

Given its location, the property is ideally positioned to capitalize on continued e-commerce growth. The property can leverage Brampton's excellent labour pool in addition to being well connected to other major labour markets in the area, such as that of Mississauga and Vaughan.

The development site is also a convenient distance from the Brampton CN and Vaughan CP intermodal and has potential for future rail access.

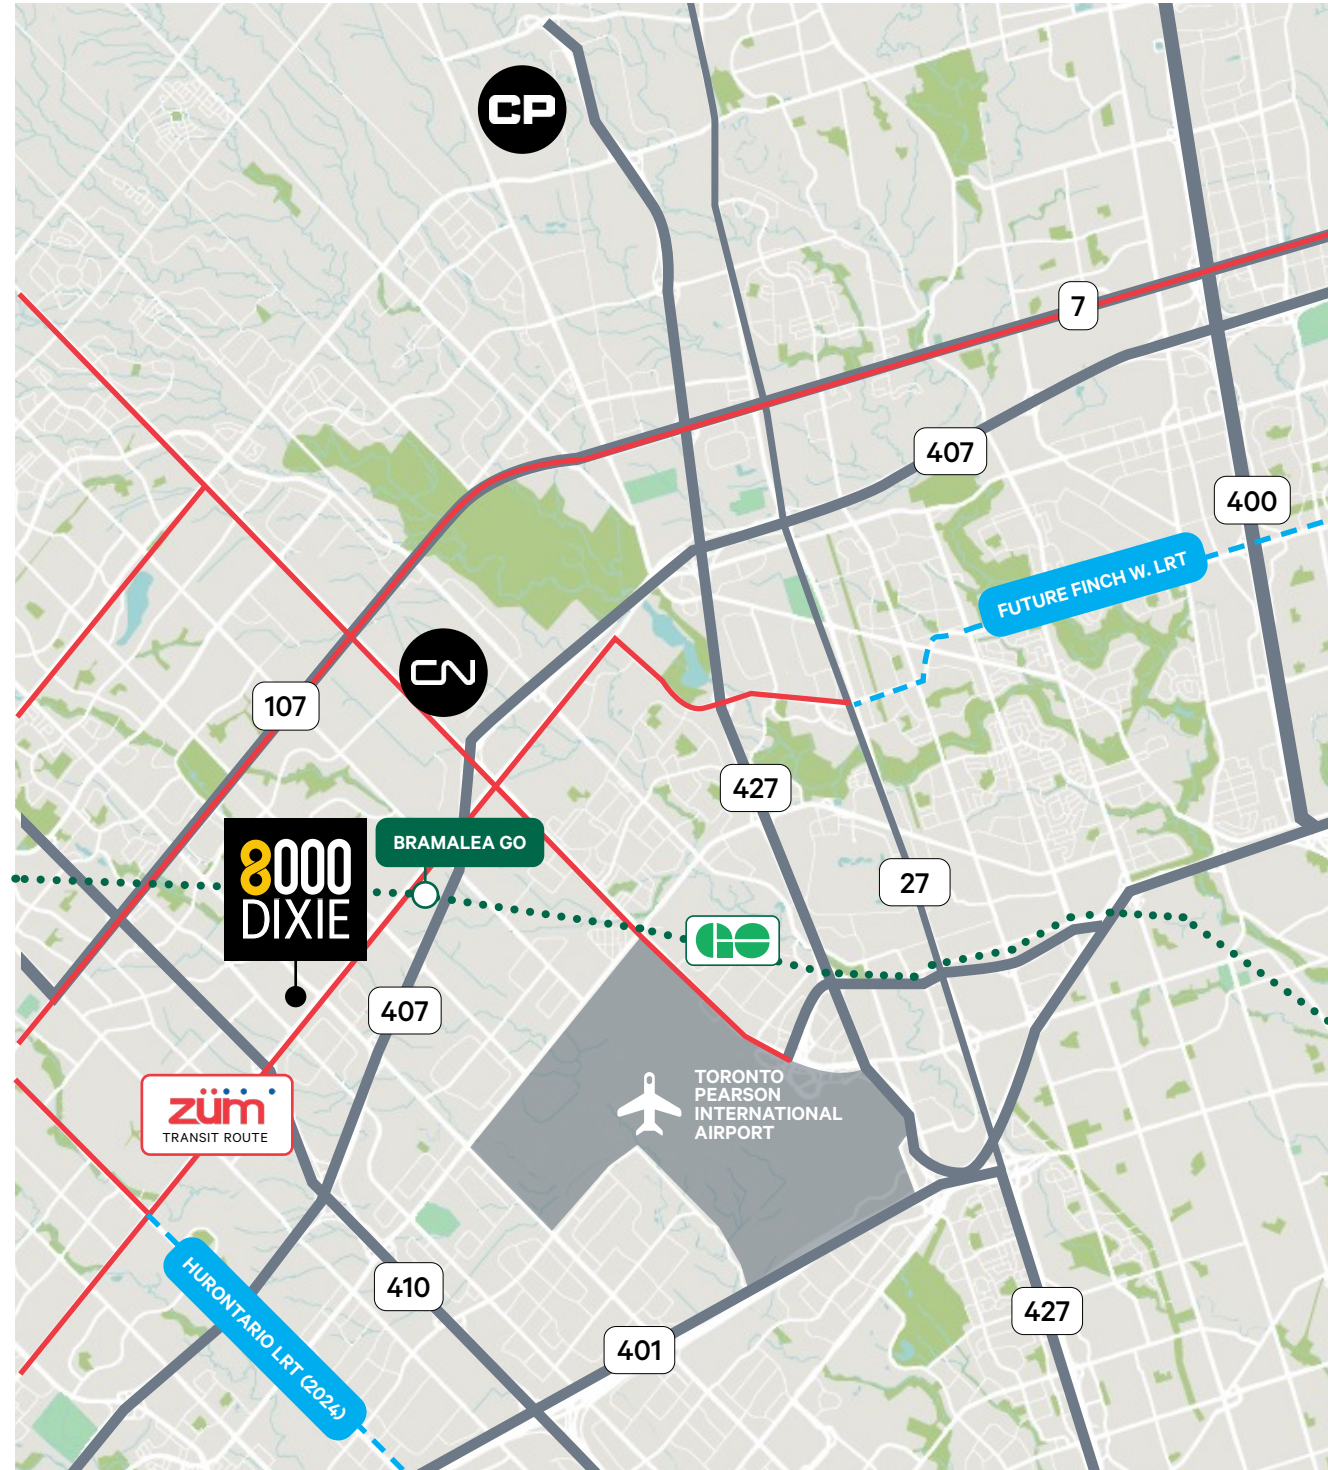

UNMATCHED TRANSIT CONNECTIVITY

8000 Dixie is located adjacent to Zum Brampton Transit extending all the way east offering connections to Viva (York Region). Bramalea GO Station is a 10-minute bus ride or 5-minute drive from the site offering connections all throughout the GTA. 8000 Dixie's connectivity will be further bolstered with the near completion of the Hurontario LRT and future Finch West LRT.
