 - Lorimar Winery

ALTAIR TEMECULA - PROJECT DESCRIPTION

The Altair Temecula project is a planned community of a maximum 1750 residential units. The project will allow for a maximum of 750 apartment units to be developed and the balance will comprise condos, townhouses and high density single-family residences. The project is designed on 270 acres in the foothills west of Old Town Temecula. The project will be built in four phases. Amenities include a 5-acre park, 8 miles of pathways and hills and a

55-acre site that could be home to a nature center. Some commercial space will also be included.

Altair will transform the surrounding area into a downtown, adding approximately 5250 residents. The residents, as well as locals, will have excellent ingress and egress as the project will also install a bypass to link Diaz road with Temecula Parkway.
