Noun

A landing place  
constructed along the edge  
of a body of water.

/ wurk /

Noun

The exertion of mental or  
physical effort in order to achieve  
a purpose or result.

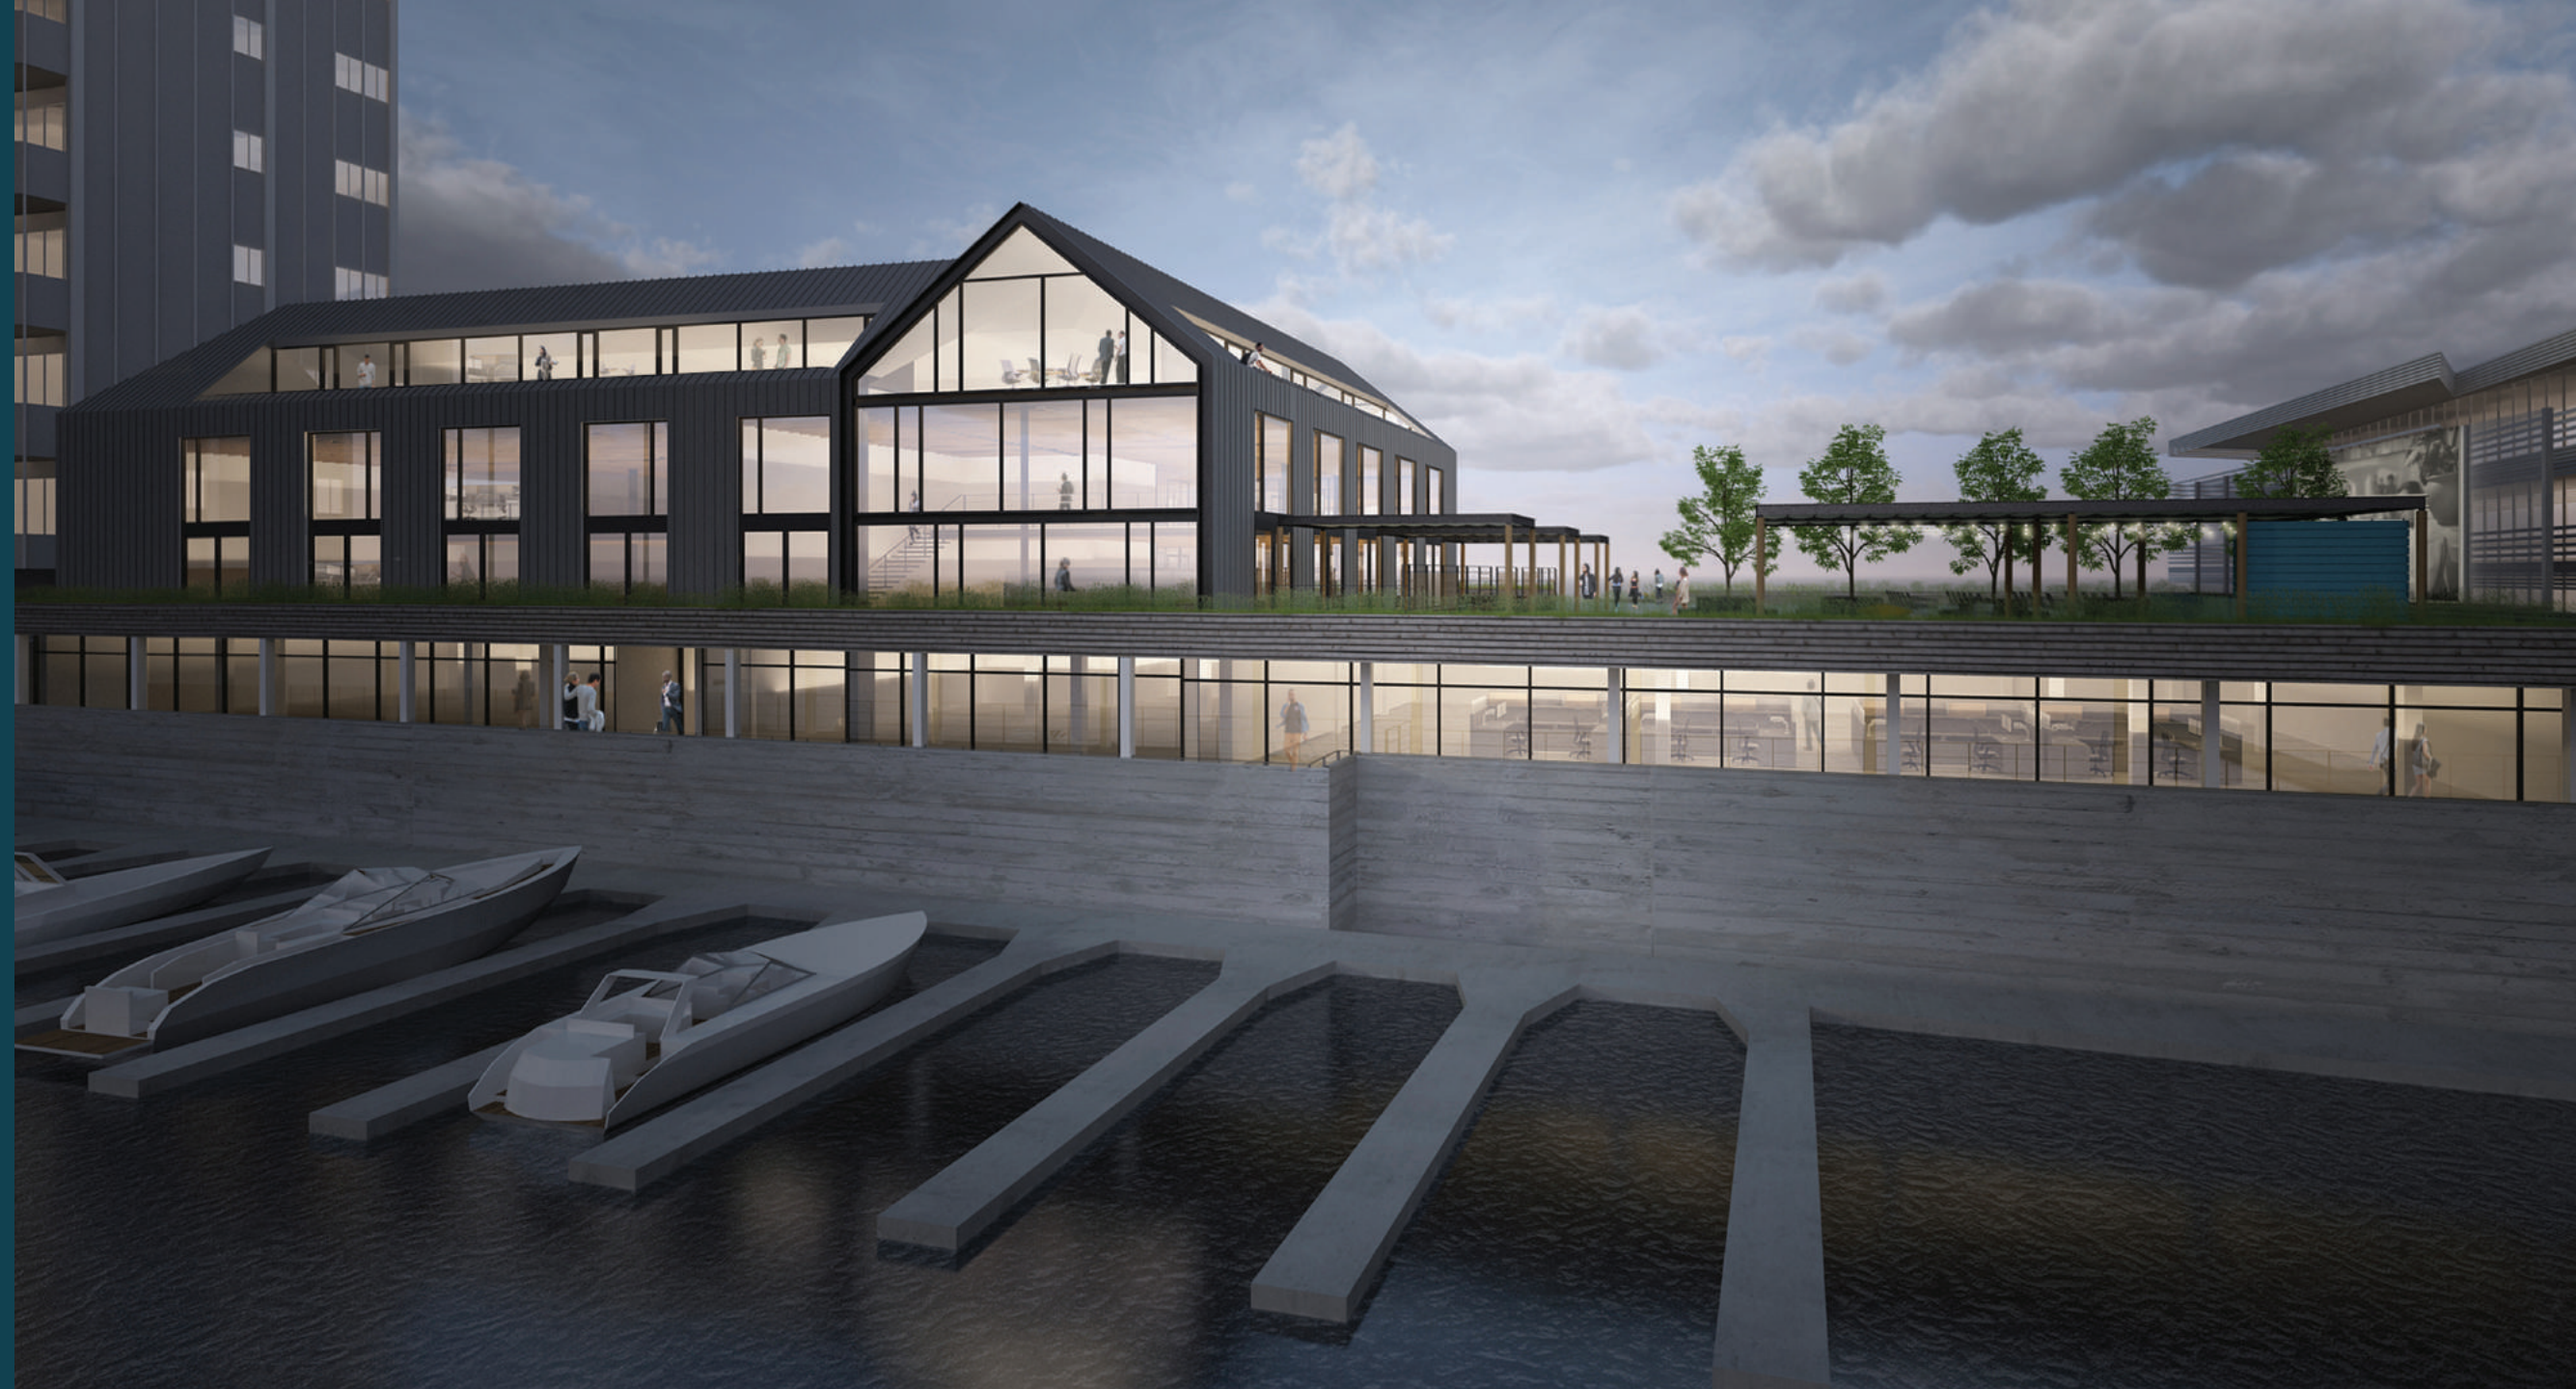

# RENOVATION

Welcome to Quay Work, where function and location come together to create an alternative work lifestyle. Designed as a platform to attract and motivate company members amongst the influences of coastal culture.

Outdoor spaces and amenities provide a relaxing environment where talented people can gather and connect. With immediate access to the harbor, walking to neighboring food + drink, or a short bike ride to the ocean for a swim or surf, our surroundings are intrinsic to the Quay Work experience.
