AREA OVERVIEW

FROGTOWN IS A CREATIVE HUB BLOSSOMING ALONG THE LOS ANGELES RIVER

Located two miles east of Silver Lake, Frogtown is a long, skinny neighborhood that's 2-4 blocks wide and 2.5 miles and hidden between Echo Park (Elysian Heights) and the Los Angeles River. It is bounded by the LA River on the north and east, Riverside Drive on the west, and Fletcher Drive on the northwest.

Offering a dense suburban feel, this cool sliver of land has become

a magnet for artists and young professionals. Housing options are diverse and include everything from small single-family homes and refinished million-dollar bungalows to industrial lofts and chic renovated apartments.

Located about 5 miles from Downtown LA and 6 miles from Glendale, Frogtown is ideally located between large established

economic and employment centers as well as dynamic neighborhoods that undergoing dramatic growth, gentrification and commercialization. Flanked on the north by Atwater Village, on the northeast and east by Glassell Park, on the southeast by Cypress Park, on the south and southwest by Elysian Park, and on the west and northwest by Echo Park and Silver Lake.

TOUTED AS THE “NEXT BIG NEIGHBORHOOD,” FROGTOWN DEVELOPMENT IS EXPLODING!

Back in 2018, The LA Times described Frogtown as “a wonderfully weird creative hub” in which single-family homes and low industrial buildings “are nestled along the curving, soft-bottom section of the LA River.” It’s a “part of Los Angeles like no other—secret and self-contained, where the hum of industry is quieted by a blanket of tranquility that seems to emanate from the river.”

Clearly, this riverside gem is not a secret anymore! In recent years, Frogtown has undergone a riverside redevelopment renaissance in available housing, nature-inspired activity and commercial offerings. There has been a dramatic increase in restaurant and retail tenants such as Spoke Bicycle Café, Frogtown Brewing, Wax Paper, and Salazar. Given Frogtown’s proximity to the LA River, its ongoing revitalization efforts, and an influx

of new mixed-use builds, it’s likely that many of the neighborhood’s former industrial buildings, live-work warehouses, and even single-family homes, will continue to turn over in the coming years as more businesses and residents find a home in the sliver of land between the 5 freeway and the river.
