Metrontario's initial business consisted of house construction which evolved into several areas of real estate development and investment. These include the production of lots for residential builders; construction, ownership and management of shopping centres, office buildings and rental apartment buildings; and the construction and marketing of condominiums and single family homes in Canada, the United States and Israel. Each project, whether commercial or residential, is built to high standards and it is these standards which have become the hallmark of the Group's work.
