Re: 124 E. Costilla St. (formerly known as 122 E. Costilla St.)

Paul,

Thank you for your response to my inquiry regarding parking requirements for 124 E. Costilla Street. Since receiving your note, I have been able to identify information that supports the property's restaurant history and, coupled with the calculations of the space included within the proposed private club, believe that we are entitled to approval as a continued restaurant use. Specifically, and in agreement with the two tests defined in your note:

1. The Cigar Bar ("private club") will occupy the same, or less, space (based on gross floor area) as the prior restaurant use. If this is the case the new use will require equal or less parking than the prior approved use and therefore not trigger parking compliance. The proposed private club utilizes approximately 3900 square feet of the building that has housed these restaurant operations: The Chicken Express, Six Flags International Cuisine, and Yen Ching, all of which were located at 122 E. Costilla Street and encompassed the entire building (approximately 5000 square feet... The Enumerations office at RBD assigned the current address, 124 E. Costilla St., upon our application for a building permit earlier this month.
2. The prior restaurant use was an **approved use**, i.e., received a building permit and/or CO to occupy the space. A Certificate of Occupancy (#2101) was issued for a restaurant use (Permit #28448) on April 25, 1972. Subsequent permits through 1987 provided continued upgrades to those uses. The last recorded use in the building, the Yen Ching restaurant, ceased operations in 1994 shortly after the current owner purchased the property. The property, as is verified by listings within the Polk Registry (attached), has remained vacant since that time.

As stated to you in my note of 4/24/07, all necessary approvals from RBD have been acquired for the construction of the Cobalt Club, except that of Zoning (Development Review Enterprise). We would appreciate an immediate review and approval of the building plans by the appropriate Colorado Springs planning agency so that the project may move forward.

Thank you for your direction in this matter. It is our belief that the proposed use is harmonious with existing zoning regulations and that the project should be approved as submitted.
