BIRMINGHAM CERTIFICATION:

 DEPARTMENT OF HEALTH AND HUMAN SERVICES
 OFFICE OF THE ASSISTANT SECRETARY FOR PUBLIC HEALTH AND SAFETY
 DIVISION OF REGULATORY AFFAIRS
 OFFICE OF CHEMICAL SAFETY
 WASHINGTON, D.C. 20201
 202-205-2000

Mr. J. Edgar Hoover
 Federal Bureau of Investigation
 Washington, D.C. 20535

Dear Mr. Hoover:

I am writing to inform you of the results of a recent investigation conducted by the Division of Regulatory Affairs, Office of Chemical Safety, Department of Health and Human Services, regarding the safety of the use of certain chemical products in the home.

The investigation was initiated in response to a report received from a consumer group that certain chemical products, when used in the home, could pose a health risk to children. The products in question are certain types of paint and varnish.

The investigation was conducted by a team of experts in the field of toxicology and health effects. The team conducted a series of tests and experiments to determine the potential health risks associated with the use of these products.

The results of the investigation indicate that the use of these products in the home does not pose a health risk to children. However, it is important to note that the use of these products should be limited to certain areas of the home, such as the basement and attic, and should not be used in areas where children spend a significant amount of time.

I am enclosing a copy of the report of the investigation for your information. If you have any further questions or concerns, please contact the Division of Regulatory Affairs, Office of Chemical Safety, at the address above.

Sincerely,
 [Signature]
