Location

The subject premises are located at the northern end of Deptford High Street, being a highly prominent location, at its junction with Creek Road and Evelyn Street (A200) and as such, has large volumes of passing vehicular traffic throughout the day.

Deptford High Street gives an excellent mix of local and national retailers, having been voted by Time Out magazine in 2022 as one of the top 33 “coolest high streets in the world”.

The area is well served by transport links, with Deptford Railway Station being within 500metres to the south, giving direct and fast access (approx. 10 mins to London Bridge) into London. There are numerous bus routes serving the area and both the A2 and A20 being close by. Greenwich Town centre with its range of world famous attractions is approx. 1km to the East.

Description

The subject premises form part of a former out building and comprise two distinct retail areas, linked at the rear of the property, which wrap around a central core (giving access to the upper parts) and a very usable basement, having had the floor screeded, excellent head height and a wide “airy” staircase, giving some direct natural light.

The space is in shell and core condition with capped off water and electrical supplies.

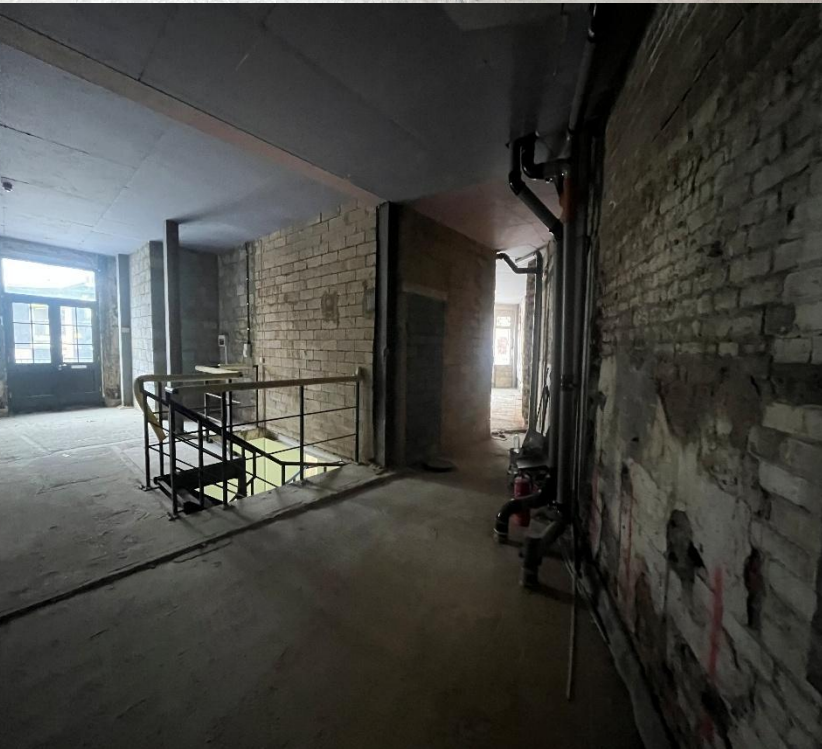

The dual nature of the shop front, coupled with the prominent location, give the premises excellent visibility and market awareness.
