# Our members say

"Best office space yet!! I've been running a tech company for 5 years and tried out various different office spaces over the years. DeskLodge is most definitely a cut above the rest! They've thought of everything - monitors perfectly positioned above desks, lots of breakout areas for collaborative meetings or zoom calls (with video conferencing facilities)."

**Orla, Kamma (Hot Desker)**

"A truly remarkable place. The subtle attention to detail of the fittings and amenities makes it a practical place to work, and the decor does aid in creative thinking as it forces you to look at the world in a different way. These are essential elements of a good place to work for ambitious startups that want to change how the world works."

**Glenn, fueled.ai (Meeting Room User)**

"Just loving working at Desklodge. As a graphic designer, I love the whole feel of the offices, as it's so creative and the team who work here, are tops."

**Mark, Brand51 (Dedicated Desk)**

"The office space is awesome."

**Stuart, Vyper Core (Office Resident)**
