Investment Summary

1709 & 1711 EAST 3RD
MIDWOOD · BROOKLYN

Two newly renovated free-market six-family buildings, sold together.

Safdie Realty Group is pleased to present 1709 and 1711 East 3rd Street, a pair of fully renovated, six-unit walk-up apartment buildings in the heart of Midwood, Brooklyn. Each building delivers 5,335 square feet across three floors, with six modern two- and three-bedroom apartments — all rented at free-market rates.

Together, the two buildings produce \$499,200 in current gross rent, with an additional ~\$83,400 of upside as units roll over to proforma rents already supported by the local market. An assumable 3.3% mortgage of \$5.1M offers a meaningful financing advantage in today's rate environment.

- ★ **Fully renovated.** Hardwood floors, quartz counters, in-unit washer/dryer, central AC.
- ★ **100% free market.** No rent regulation; full mark-to-market on turnover.
- ★ **Tenants pay heat & electric.** Tight expense load relative to comparable Brooklyn multifamily.
- ★ **Assumable financing.** \$1.2M at 3.3% — meaningful spread vs. current debt markets.
- ★ **Sell together or separate.** Configurable as a single 12-unit portfolio or two distinct assets.

AT A GLANCE
