Creekside at Brookwood

Creekside at Brookwood presents a rare headquarters opportunity offering up to ±45,345 square feet of newly delivered, stand-alone Class A office space within one of Alabama's most sought-after submarkets. As one of the largest and only blocks of newly constructed office space available in the market, the building provides exceptional scale, branding visibility, and long-term strategic positioning.

The property is in the heart of the transformative redevelopment of the former Brookwood Mall site, a landmark project that includes the nationally recognized Andrews Sports Medicine campus and will redefine the Midtown corridor as one of Birmingham's most vibrant mixed-use districts. Planned as a high-end, walkable environment featuring new retail, dining, and hospitality, the redevelopment will reshape the landscape of the area and establish Brookwood as a premier destination for business and lifestyle.

Property Overview

Located within the City of Homewood, tenants benefit from the absence of an occupational tax, creating a meaningful financial advantage over Birmingham alternatives. The property also includes 158 exclusive total parking spaces at no cost, a rare amenity for a building of this size and quality in such a walkable urban setting.

For organizations seeking visibility, accessibility, and proximity to Birmingham's most desirable neighborhoods, Creekside at Brookwood represents a generational headquarters opportunity within the city's next premier mixed-use destination.
