#### SECOND GENERATION RESTAURANT SPACE:

This 1,245 SF suite comes move-in ready for a restaurant operator, with 9' ceilings and two ADA-compliant restrooms. The space is fully equipped with robust utilities, including a 200-amp, single-phase OG&E panel and Oklahoma Natural Gas service via a 1¼" line capable of handling up to 750K BTUs for RTU and 650K BTUs for a vent hood — plenty of capacity for a full-service kitchen.

The HVAC is a 5-ton gas/electric package unit installed in May 2022 with an individual thermostat, and fire suppression is in place and Green Tagged. A Canplas Industries grease trap (Model 3925A02(s), 2" line, 93% efficiency) was last inspected in February 2026, keeping you current on compliance. Plumbing includes 2" lines, a mop sink in the storage area, and one floor drain.

A vent hood conveys with the space, saving a new tenant significant build-out costs right out of the gate. The suite also features back door access and is ADA compliant.
