

SUITE 97C

The Wilder II

THE SUITE

Same suite as 97B — one floor up, a little more sky.

Three walls of windows, a view into the original light well, and a windowed focus room that catches the natural light. Plus a kitchenette in an antique elevator shaft, a huddle room, and two phone booths.

The top half of a two-floor footprint with 97B, or simply the top floor of one of Atlanta's best blocks.

ORIGINAL HOME OF

D. R. Wilder

Steam Candy Manufacturing

David Wilder ran a steam-powered candy manufacturing operation here in the 1890s, using then-cutting-edge industrial technology to produce candy at a scale and consistency no one else in the South could match.
